Cambria Freeman.

EBENSBURG, CAMBRIA CO., PA.

FRIDAY, - - - - JULY 19, 1895.

Bids have been asked for by the secretary of the navy for the construction of six new gunboats.

ALABAMA coke is being shipped to Mexico to be tested in the smelting furnaces of the country.

GOVERNOR HASTINGS has appointed Mrs. A. J. Kauffman, of Columbia, and Mrs. O. D Thompson and Miss Julia Morgan Harding, of Pittsburg, as state commissioners to the Pennsylvania board of the Atlanta exposition.

THE president has issued a proclamation stating that, as Spain has extended to American citizens the privileges of copyright as contemplated by our copyright act. Spanish citizens are granted the privileges of American copyright.

NEAR Louisville, Col., there has been found a clean vein of very hard coal, 14 feet thick, within 10 feet of the grass roots. The coal underlies a range of bluffs, and the place where the prospectors found it is but 500 feet from the mail line of the Union Pacific, Denver & Gulf Railroad.

IN the United States district court at Erie Tuesday three justices of the peace, A R Fros. I. L. Case and C. A. W. Nason, of Townville, Crawford county, were convicted of making false pension certificates and certifying to the same. This was part of a gigantic pension fraud system exposed in Crawford county recently by government detectives

A POLITICAL sensation was created at Bellefonte, last week when the fact leaked out that A. A. Dale and Victor Gray, as Quay delegates, were contesting the election of Governor Hastings and Captain S. H. Bennison as delegates to the Republican state convention. The Hastings people had not anticipated a struggle in the governor's home county, but the Quay workers allege that they have already captured a goodly number of precincts.

ACCOUNTS of the damage done in Connecticut by the hail storm of Saturday afternoon show that in Glastonbury alone 300 acres of tobacco are ruined. The greatest damage was done in that vicinity. It was calculated that the weight of the hailstones on a four acre field was 64 tons. The hail was gathered from a section 8x16 feet and weighed. It was found that the fall was 200 pounds to the square rod, or 32,000 pounds to the acre.

ALL advices from Yokohama concur in the statement that the Japanese people are enraged against Russia for her interference in the settlement of the China-Japanese war, and are confident that they can punish her. As the Japanese troops return from the Liao Tung peninsula they are hurriedly sent north, where they will be ready instantly on the receipt of orders to land in Korea. In another month Japan will be ready for a war with Russia.

THE Dunham-Sitter judicial contest court in Laporte, Sullivan county, has completed the taking of evidence in the case and adjourned to meet again in Laporte, August 6, when the counsel for both sides will submit the case finally and a day will be fixed for argument. Now that the evidence is all in it seems apparent to all who have followed the case that Judge Dunham, who was returned elected last Fall, will be retained in office. The size of Dunham's majority and the disposition of the costs seem virtually the only questions remaining.

EX SECRETARY of the Treasury Fairchild, who presided at the meeting of the New York State Democracy held in Cooper Union to declare for sound money recognizes that while the cause is making rapid headway it is too soon to accept as a foregone conclusion that the battle has been won. There is still an honest sentiment in favor of the free coinage of silver, and as long as this opinion shall exist it will need to be reasoned with, and should not be permitted to deceive itself with the idea that there is any practical division of opinion among eastern Democrats upon the question.

ONE of the most remarkable exhibitions that has ever been recorded will take place before a vast audience at Canton, O., on next Saturday afternoon. A syndicate composed of local business men of that city led by A. L. Streeter, a fellow whose bump of originality must be of unusually large proportions, have purchased two old passenger engines from the Cleveland & Pittsburg road, and made such repairs and improvements as were necessary to insure the success of the exhibition which is to be nothing more or less than a first class collision which will take place inside a large enclosure, capable of seating 10,000 people. To give the affair some political significance, one of the engines has been named Free Trade and the other Protection, and their contact when running at 60 miles an hour is expected to make either protection or free trade a dead issue for sure, and probably both will be completely demolished. The locomotives will be fired up till they are both blowing off at 160 pounds of steam, and then they will be started toward each other, one mile apart, and after the throttles are thrown open the engineers will jump and let both the iron monsters rush to destruction. If all the calculations are correct, the collision will take place about the center of the enclosure, where the 10,000 people, who have paid 75 cents each to see the smashup, will be seated at a safe distance.

THE Iowa Republicans at their state convention, says the Pittsburg *Post*, faced the dilemma in which the calamity shriekers of that party now find themselves by putting in the plea that our industries were built up under Republican policy—that they were paralyzed under Democratic policy—and that they have been revived by the assurance of a continuance of Republican tariff policy given by the late elections. As this lame excuse promises to be heard from every Republican convention of the Union this year and next, let us look into it a little for the fun it affords.

What is "the record of the building of our industries under Republican policy?" The facts are that the whole McKinley period was one of wage reductions, strikes and riots. Wages were reduced in thousands of mills, not once, but twice or three times in many of them. The Reform club of New York made an exhaustive examination of the subject and found that with the one exception of the Fall River cottom mills, which advanced wages less than 10 per cent., there was not in the whole four years of McKinleyism in this broad land a wage advance worth mentioning in any protected industry. And as to the claim of the Republicans that these wage reductions under McKinleyism were caused by the fear of the Cleveland administration and tariff revision, the Reform club above noted, in 1892 compiled a list of wage reductions in over 1,000 protected mills in 1891 and 1892, before the people had voted to turn the Republicans out.

The Wilson law—that harbinger of calamity and starvation—has been in operation only 10 months, and what is its record? Has it, as the Republicans of Iowa claim, "paralyzed" our industries? Let the facts answer in restored business confidence, busy mills, mines and factories, and wages advanced in all the great departments of industrial activity. "Bradstreet," the leading commercial paper of the Union, and representing the most far-reaching commermercial agency, and therefore the best informed authority on the subject, in its issue of last week, after stating that the increases of wages have outgrown the resources of statistical bureaus that endeavored to keep track of them, says that "the latest advices are that more than one million industrial workers have received an advance of wages averaging about ten per cent." There is no politics in this. It is the cool and cautious statement of the foremost commercial authority of the Union.

If, as the Iowa Republicans claim, the prosperous condition of buisness and wages is due to Republican victories, what becomes of the outcry against the Wilson law by which these elections were carried, with the aid of a world-wide panic? No Democrat in the Union proposes to repeal the Wilson law. No Republican of the Union proposes to re-enact the McKinley law. That fact is a settler of the Republican claim that Democratic tariff policy created the panic and the hope of Republican tariff policy is the cause of our starvation. The McKinley tariff is abandoned by its friends. The Wilson tariff is vindicated and no Republican of prominence in the land proposes to repeal it in favor of the McKinley abortion.

Republican conventions this year, judging from the specimen we have in Iowa, will engage in the arduous task of teaching the people that white is black and black is white.

THE creation of a superior court and the change in the judicial districts by the late legislature, says the Harrisburg *Patriot*, will increase the cost of the state judiciary $149,000 biennially. The legislature has set aside $1,324,000 for the judiciary for the next two years. The cost of this branch of state government the past two years was $1,175,000. The superior court gets an appropriation of $109,000. With the exception of $11,000, this amount represents the salaries of the seven judges for the next two years. The balance will be used for the prothonotaries clerk hire and incidentals.

The number of common pleas judges was increased by the late legislature from sixty-four to sixty-eight and the consequent cost to the state of $32,000 for the next two years. An additional orphans' court judge in Schuylkill county added $8,000 more to the cost of the judiciary. There are twelve common pleas judges in Philadelphia, nine in Allegheny county and seventy in the rest of the state. Their aggregate salary for the next two years will be $840,000. The supreme court gets an appropriation of $132,000 for salaries and $19,200 for clerical assistance and other expenses. The orphans' court judges will receive in the aggregate of $104,000 the next two years and the associate judges $64,000. The mileage and extra pay of common pleas judges for holding court outside their own districts is estimated at $75,000, in the general appropriation bill passed by the last legislature. There are sixty associate judges in the state.

IT is only by a reference to the census figures that we get a true insight of the exteent to which women have invaded those fields of employment commonly supposed to be man's peculiar domain. There are 6,286 female compositors at work, 396 are soap and candlemakers, 418 are powder and cartridgemakers, 42, carry on plumbing and 23 plastering, 208 cure and pack fish, 129 are butchers, 72 are brewers and malsters and 15 are engaged in lime burning. Pennsylvania has 119,742 female servants, while in South Carolina 78,315 females are agricultural labors. After all, the wo do much of the world's work.

SOUTH DAKOTA is making ready to harvest an unprecedented grain crop while an enormous crop of corn is likewise assured. The fact is cheering not only as a harbinger of general agricultural prosperity, but as an assurance that there will be no cry for bread, nor any shadow of a famine cast upon that section of the northwest this year.

Washington Letter.

Washington, July 13, 1895.—Secretary Herbert finds himself so busy with the plans for building the battle ships and torpedo boats authorized by the last congress, and other important business, that he has been compelled to postpone his vacation for a time. He hopes to have things in such shape that he can leave about the last of the month.

Everybody is laughing at the Spanish minister, who has been sent on a fool's errand by his government. He has gone to Secretary Olney's summer residence, in Massachusetts, to ask an explanation and an official statement concerning that silly fake purporting to be an interview with Ambassador Enstis, which was published in a Paris paper early this week and cabled to this country, and which was promptly followed by a denial from Ambassador Enstis. No denial was needed. Everybody knew that the thing was a fake, but the Spanish government seems to have taken it seriously, or, it is so pretending for some purpose of its own. Secretary Olney will dispose of the Spanish minister and his silly request in short order.

According to Col. Harvey, of the New York *World's* editorial staff, who is in Washington, "Teddy" Roosevelt has given Tammany a "cinch" on the next municipal election, by his strict enforcement of the excise law. Col. Harvey said: "The result will be far-reaching in a political way and will beyond doubt damage the Republicans materially in New York City. I have no idea that they will be able to elect a single assemblyman or senator from the city or from Brooklyn this fall. Every Tammany candidate will win. People who live at a distance can't begin to appreciate the local feeling that has been aroused by this affair, and it is not a feeling that will die away in a little while. The administration has gone too far to recede; it must carry out its policy, and the more rigidly that policy is adhered to the more ceriain and sweeping will be the victory of the Democrats."

Evidently Mr. Benjamin Harrison is becoming frightened at the hammering McKinley is getting at the hands of the friends of the other candidates, as a result of his efforts to keep himself prominently befor his party as a presidential candidate. Mr. Harrison is tender and he never liked hammering, so he has adopted another course. It has been said before, but fearing that it might have been forgotten, he arranged to have Mr. John W. Foster, who was once charged with being Mr. Harrison's spy upon Secretary Blaine, and who became secretary of state himself when Mr. Blaine retired from the Harrison administration, to say again that he was not a candidate; was doing nothing to get the nomination, but would not, of course, decline should the party insist upon nominating him. The sentiments are absurd, and they fool nobody.

Attorney General Harmon isn't satisfied with the decision against the government in the suit against the Stanford estate, and he this week directed the United States district attorney at San Francisco to appeal the case to the United States circuit court of appeals for the Pacific coast district. It is no violation of confidence to add that should the court of appeals decide against the government the case will be carried to the United States supreme court. This suit, which is for $15,000,000 is only against the Stanford estate, but if the government wins the estates of all of the Stanford's Pacific railroad associates who, became rich by their manipulations of a company that has always pleaded its inability to repay money loaned it by the United States government, will have to disgorge to the amount of their stock holdings in the road, if to no further extent.

The White House mail gives evidence of the rapidity with which the news of the birth of President Cleveland's third baby has been disseminated, but it also gives evidence of the careless manner in which many people read the news. It would be natural to suppose that every man, woman and child who reads the newspapers knows that President Cleveland and his wife and children are at their summer residence, Gray Gables, on Buzzard's Bay. Well, there are thousands who have read or heard of the birth of that third girl who believe that the baby was born in the White House and that Mrs Cleveland is there now, and every mail brings hundreds of letters addressed to her at the White House. This is just as well, however, as there are more clerks at the White House to go over these letters and select such as are worthy of Mrs. Cleveland's attention than there are as Gray Gables. Still their coming to the White House is queer. M.

Town Nearly Wiped Out.

Hackensack, N. J., July 14.—The little village of Cherry Hill, on the New Jersey & New York railroad, two miles north of this city, was almost wiped off the face of the earth in the most destructive storm that was ever known in this part of the state yesterday afternoon.

At 2:45 P. M., it was a beautiful place of about thirty houses, on the plain and sloping hill. Fifteen minutes later there was not a whole building left. Four dwellings, the new depot and about two dozen barns and the outbuildings were reduced to kindling wood and scattered in all directions. Other dwellings were partly wrecked. Nearly every street was impassible from fallen trees and wreckage, while fathers, mothers and children sat in the midst of the ruins bewailing the destruction. Worst of all two men and an infant were killed in the ruins. Three men were seriously injured and others were slightly bruised.

A Big Coal Trust.

Columbus, July 14.—A project is on foot for a combination of all the bituminous coal operators in the United States.

The plan has been pushed ever since the meeting in New York last spring, which resulted in the formation of the Ohio Coal Traffic Association. It was the intention to form the combine then, but the projectors failed, and the traffic association was the best combination that could be made. But the leaders, principal among whom are Colonel James W. Ellsworth, of Chicago, and Frank Brooks, of this city, have been quietly at work ever since on their old plan. Representatives of all the coal mines in the country will meet here the first week in October.

Stabbed His Rescuer.

Pittsburg, Pa., July 14.—Charles C. Keetley, living on the South Side, and employed as a railroad flagman, was brutally, and, perhaps, fatally stabbed by an ungrateful tramp. The latter was asleep on the bumpers of a car about to be moved this morning, and his life was saved by Keetley's pulling him off just in time to prevent his being crushed under the wheels. Keetley put down his lantern to get the man off. Afterward he stooped down to pick it up, when he was attacked by the tramp and stabbed twice through the back. Then he was stabbed in the breast. His would-be murderer fled, and has not been captured.

Highest of all in Leavening Power.—Latest U. S. Gov't Report

Royal Baking Powder

ABSOLUTELY PURE

Fierce Forest Fiers.

Detroit, Mich., July 12.—A special from Thompsonville, Mich., says: Forest fires are still raging north and south of here. Wallin, the small town five miles north, that was swept by fire yesterday, presented a dessolute appearance to-day. A Mrs. Griffin and her three small children, wrapped in bed clothes were found buried in the sand in a very precarious condition. The fire had swept over them and scorched them severely. Johnnie Payne, a boy of 8 years, was found in the Betsey river, with the fire raging on both sides of him. The little fellow had lain in the stream all night. So far there has been no actual loss of life reported, although some three or four persons are reported as missing. The town of Clary, which was said to have been destroyed, is thought to be safe, as the residents backed fire on all sides. The railroad company is fighting fire around its section house just south of here, with small hopes of having it.

The town of Wallin, which was totally destroyed, was owned chiefly by the Wallin Leather company and Sullivan Lumber company. Grand Rapids and Indiana railroad officials say that the danger to other towns has not passed and nothing but heavy rains can avert enormous losses. The railroad officials state that there is no loss of life at Wallin.

A Woman May be Electrocuted.

New York, July 15.—The trial of Maria Barberi, in the court of general sessions before Recorder Goff, for the murder of her lover, Domenico Catoldo, was concluded to-night, the jury bringing in a verdict of murder in the first degree. The prisoner was remanded until Thursday for sentence. She is the first woman in the state condemned to death since the passage of the law making electrocution the penalty. As the case now stands Maria is adjudged by the jury a subject of the electric chair. The sentence of the court, of course, has not yet been pronounced, but there is but one sentence for murder in the first degree.

Few believe, however, that Maria, will ever sit in the death chair. The case, it was reported to night, would be taken to the court of appeals, and if that court did not order a new trial the governor would be appealed to to commute the sentence of death to imprisonment.

Race War in Arkansas.

Camden, Ark., July 14.—About 12 o'clock last night at Hampton, 30 miles east of here, two negroes were mobbed by 85 men. Two weeks ago a white man named Martin was killed by three negroes. Two of them were arrested and confined in jail. A mob gathered several nights ago, but were persuaded to desist. Last night there was another gathering, and 85 determined men marched to the jail and demanded of the sheriff the surrender of the murderers.

It was useless to resist such a force with but a handful of men to summon to his aid so the keys were delivered to the mob. The culprits were carried to the neighboring forest and hanged to the trees. The men were not masked and made no effort to conceal their identity. Two years ago a race riot occurred in Calhoun county. The negroes greatly outnumber the whites and further trouble is expected.

North Dakota Storms.

Grafton, N. D. July 15.—A cyclone at the place of O. D. Nelson, six miles northeast of here, at 4:45 o'clock this afternoon, did much damage. In one house destroyed there were five persons. Mrs Nelson was sitting on the porch with a baby in her arms. When in the air she dropped the baby and was carried 30 feet. Both were uninjured. A 12-year-old girl named Peters was badly hurt, and will die. The hired man was carried 300 feet and dropped in a grove. He is badly hurt, but will recover. The servant girl was badly hurt about the feet and back. Three miles southeast a farmer named Knudson had the roof taken off his house, and there is undoubtedly more damage done.

A New Bug Appears in Indiana.

Greensburg, Ind., July 14.—The farmers for miles around this town will harvest no crops this year. First came early in the spring the Hessian fly, which did incalculable damage. Then came a peculiar bug, which destroyed the wheat and corn crops.

Now there has appeared a strange bug resembling very much the potato bug, which is eating up all the timothy. It seems to be a new species, and local scientists are puzzled. There are millions of them in every grassy spot in the country. They clean all vegetation before leaving the spot.

Bold Attempt at Assasination.

Safia, July 15.—While ex-Prime Minister Stambuloff, accompanied by M. Petkoff, was walking home this evening from the Union club, he was attacked by four unknown men. Two of them shot him with revolvers while the other two stabbed him. M. Stambuloff fell to the ground moaning. He was removed to his residence and physicians were summoned. After an examination of the wounds the doctors announced that there was little hope of M. Stambuloff's recovery. The assassins escaped and there is no clue to their identity.

Ripped With a Knife.

St. Louis, July 15.—Ella, alias "Kid" King, a negress, was murdered in true Jack-the Ripper style at a late hour last night. The woman, whose abdomen was ripped upon by the knife of the assassin, died at the hospital soon after reaching there.

To-night Charles Schlict, a white man, who is said to have lived with the King woman in Kansas City, was arrested on suspicion of having committed the murder, which he strongly denies. Just before the crime was committed he was heard to say he would get even for being robbed of 50 cents.

Lost on Her Trial Trip.

South Haven, Mich., July 14.—The yacht Arctic, built here by Coates & Stillson for H. S. Titsworth and launched last Tuesday, started for Saugatuck today with the owners and builders on board. About two miles out of this harbor the little vessel capsized and sank at once with the three men. The life saving crew put out at once on a mission of rescue, but found only a cap. All three of the men drowned have families.

NEWS AND OTHER NOTINGS.

—To kill his dog a Shenandoah miner tied a stick of dynamite to it, blowing the canine to pieces.

—Little Charles Hawk, son of Samuel Hawk, at Catasauqua, drowned in the Lehigh river while bathing.

—Knocked from a load of hay near Norristown, Albert Pauling was dangerously crushed by the wagon wheels.

—In attempting to catch a squirrel in a tree top at Shamokin little John McNutt fell 40 feet and was fatally hurt.

—Thieves blew open the safe in the Philadelphia and Reading company's Trenton station, but got only $20.

—A respite from August 1 to November 6 was granted by the governor to Frank Rezek, the Lackawanna murderer.

—As the result of a quarrel at Cole Creek, McKean county, a man named Button dangerously shot young Leo Phillips.

—Without a sound, Jacob Baumberg fell dead in the street at Wheeling, W. Va., and was found to be shot by an unknown foe.

—Forest fires in New Foundland have burned over a hundred miles of country. The settlement of Novies Arm was wiped out.

—A gang of mounted robbers rode into Lake City, Fla., looted A. M. Chandler's store and the depot and escaped with their plunder.

—A committee of the new superior court judges met in Philadelphia last week and prepared rules for the government of that tribunal.

—A piece of glass, which ran into her foot, caused death by blood poisoning of Jerome Bixley's daughter, at Millerstown, Clinton county.

—A caisson of a large bridge in course of construction by a French firm at Nasel-Hama, Egypt, sank with 40 workmen, all of whom perished.

—Accused of robbing the Roland post-office, Edward Hannahan, of Altoona, and James O'Neill, of Williamsport, were captured at Bellefonte.

—Hon. J. K. Vardaman, free silver candidate for governor of Mississippi, has withdrawn. In a public letter he says he "sees" he cannot win."

—It is estimated that in the valley between Jersey Shore and Williamsport, 12 miles long, 500,000 bushels of wheat were harvested this month.

—In attempting to cure his cow by bleeding her, aged Abraham Delp, of New Britain, Bucks county was attacked by the beast and nearly killed.

—When drunken Fred Barnett attacked Mrs. H. Buchholz in her husband's saloon at Cleveland, Policeman Ragan interfered and clubbed him to death.

—A $10,000 building will be erected on the Atlanta exposition grounds by the Pennsylvania commission. November 14 will be Pennsylvania day.

—In a suit before him for alimony, Judge Wilson, of Cincinnati, announced from the bench that "any man who gives all his salary to his wife is a fool."

—A reward of $1,000 is offered by the New York police for the capture of Killoran, Russell and Allen, the postoffice burglars who broke out of Ludlow street jail.

—Search is being made in California by Mrs. Marie Wainwright, of Boston, for her son George, supposed to be in the regular army, who has inherited wealth from an uncle.

—Mary Karl, of Kittanning, has sued her lover, Thomas McMann, for $35. The girl paid this amount as McMann's fine for shooting at a crowd of toughs. McMann has disappeared.

—Five-year-old Edith Severns, of Marengo, N. Y., put her finger in the mouth of a snapping turtle her father caught, and may lose her life from blood poisoning from the bite.

—A peculiar accident in East Monmouth, Me., may result seriously. A man by the name of Prescott was leading a colt, when the animal whirled and kicked, striking Prescott in the region of the hip pocket, where he carried a loaded revolver. The revolver was discharged, the bullet lodging in the calf of Mr. Prescott's leg.

—A report from Peach Springs, Ariz., says that one of the largest silver nuggets on record was found about four miles from that place several days ago. Two prospectors on their way from Death Valley, discovered a bowlder weighing several hundred pounds, composed of nearly pure silver. The value is placed at about $10,000.

—Mr. Martin Turnbaugh, a farmer residing about two miles and a half from Bellwood, was thrown on Friday last from a wagon laden with grain by the vehicle overturning, and sustained numerous injuries, the most serious of which were the breaking of his nose and the wrenching of his back. He will be incapacitated from work for some time.

—Miss Nellie Rodgers, the pretty young daughter of the late inventor, George Rodgers, was to have been married at Bellefonte on Friday to Roland T. Wyle, a bicycle dealer. It was announced at the last moment that the bridegroom had skipped for the West, leaving no trace as to his intended destination or no explanation as to the reason of his hasty departure.

—Through a trustworthy source we learn that, in the near future, two test holes will be put down near Bolivar, in a search for gas or oil. The holes will be drilled to a depth of three thousand feet each. Oil experts say that surface indications are exceedingly favorable. The party putting down the wells is an old oil man, and will give the fifteen hundred acres he has leased a thorough test.

—On Sunday morning a horrible disaster occurred at the pulp mill located one mile west of Cumberland, Maryland, in which Cornelius Miller, aged 35, lost his life. He was employed in the digesting room and had fallen asleep in the blow out pit. It is the custom to blow out the digesters every morning, and as usual this was done, completely covering Miller with acids and boiling water. Twenty minutes later the unfortunate man was found by the employes, the acids having eaten portions of flesh from his bones. He leaves a widow and four children.

The Keystone of the Arch.

In the edifice of health is vigor, which means not merely musculer energy, but an active discharge of the various functions of the body such as digestion, secretion of the bile, the action of the bowels, the circulation of the blood. Nothing more actively and thoroughly contributes to the united performance of these functions than the renowned tonic and regulator, Hostetter's Stomach Bitters. The result of its use is a speedy gain in strength, together with the agreeable consciousness that the tenure of life is being strengthened—that one is laying up a store of vitality against the unavoidable draughts which old age makes upon the system. The fortifying influence of the Bitters constitute it a reliable safeguard against malaria, rheumatism and kidney trouble. Appetite and sleep improve through its use, and it protects the system from the effects of cold and damp.

It Pays to Advertise.

Cambria Freeman.

PUBLISHED IN CAMBRIA CO., PA.

JULY 19, 1895.

LOCAL AND PERSONAL.

—Quite a number of people have signified their intention of taking stock in the enterprise of cleaning out the Shenkle dam and there seems to be no doubt that the project will be a go.

—Benjamin Harrison announced at Old Forge, N. Y., on Wednesday that "under no circumstances will he become a candidate for the presidency." It is the old story of "sour grapes."

—The county auditors of Schuylkill county have surcharged ex-Sheriff Wool upwards of $1,200 for credits allowed him for horse hire and other incidentals claimed by him in his last report.

—The P. R. R. agency at Cherrytree has been changed from passenger and first-class freight to passenger, baggage and first-class freight, and Clarence H. Books appointed agent, *vice* L. G. Gorsuch, transferred.

—The son of John Slopienski, aged 5 months, died at Greensburg on Thursday. The lighted candles placed around the body ignited the drapery covering the corpse, and the coffin was burned and the body charred black.

—While playing carelessly with a loaded 22-calibre revolver in company with several companions Tuesday morning, Cyrus, the 14-year old son of Mrs. Mary Long, of Morrellville, was shot through the palm of the left hand.

—The Stafford Lodge I. O. O. F. was established at Vintondale on Monday and a large delegation of members of the order were in attendance from Ebensburg. A special train was called into service for their transportation.

—A recent issue of the Clearfield *Republican* said: At a family gathering in the home of William A. Terpe, at Redfern, this county, last week, there was present Asaph Kirk, of Grampain, the head of five generations of his family.

—An exchange remarks that people who are timid about traveling on the railroad should be reassured by the fact that last year only one passenger was killed out of each 1,912,618 carried, and only one injured out of each 204,248 carried.

—A common wooden bucket is traveling by express over the Pennsylvania system of railway, which was started from Atlanta. Every messenger who handles it attaches a tag, and at present the sides of the bucket are covered with stickers.

—It is reported that during the month of June the Pennsylvania Railroad Company handled more freight in Johnstown than in any previous month in its history, and the Cambria Iron Company's bill alone amounted to $212,000 for the month.

—It has just been announced that the Philadelphia company which is opening a new coal mine at Hastings, this county, will erect 1,000 coke ovens. It is proposed to equip the mine with electric light and machinery driven by electric power.

—Mr. Simon Fisher, an old resident of Allegheny township, was in town on Monday and left on the 10:20 train for New York, intending to take a steamer from that city on Wednesday for Baden, Germany, his native place, which he left about 50 years ago.

—Paymaster J. P. Wilson distributed $1,000 as two weeks' pay among the miners of the Conemaugh Coal company, at Conemaugh, and $4,000 among the Argyle Coal company's miners at South Fork on Monday. On Tuesday he paid $500 to the miners at Dunlo.

—Freeman and Good, the condemned murderers who are to be hung in Greensburg to-day (Thursday), made their wills last Saturday. Freeman bequeaths his body to his brother, who resides in Pittsburg, and Good bequeaths his to the Revs. Meek and Funk.

—In the case of the widow of Rev. James Walker, of Rockdale, who was crippled for life in the South street railroad accident, a jury in Philadelphia awarded her $23,500, but the court made a ruling reducing the verdict to $15,000, and Mrs. Walker accepted the amount.

—The best of the laws of widespread interest in Pennsylvania signed recently by the governor is that fixing 2,240 pounds as a ton of coal. Dealers who sell less than that can now be fined. In some parts of the state dealers have been giving only 2,000 pounds for a ton.

—Miss Mary Strittmatter an estimable young lady, daughter of Mr. and Mrs. Augustine Strittmatter, of Carroll township, died at her home on Thursday, July 18th, from pneumonia, aged about 17 years. Her remains were interred in St. Benedicts cemetery, Carrolltown on Saturday.

—One night last week Charles Tomlinson, of Allegheny township, while returning from Gallitzin, was knocked down on the road near Christy's mill by some one who dealt him a blow from behind which rendered him unconscious. His watch and chain and pocketbook containing $5.75 were taken.

—The Delaware peach harvest promises to be abundant and is now estimated at about 3,500,000 baskets. Such a prospect is more than comforting to the farmers, as a good peach crop means the cancelling of many obligations and a general straightening out of the shortcomings of the past three years.

—This year will go into history as bicycle year. The growth of the wheel's popularity has been so amazing that it seems as if all the world had discovered that the wheel is a good thing and is trying to get on one as soon as possible. The roads are alive with cyclers and one meets them everywhere.

—James S. McClemmons stole a banana from Mrs. N. Sant's fruit stand at Johnstown. Mrs. Sant, who is an Arabian, caught him at it and knocked him down with a chair. Then she proceeded to maul him good and had him nearly dead when Officer Miller interfered and took both to the lockup.

—Governor Hastings has signed the bill passed by the recent legislature which requires county commissioners to buy all blank forms, letter heads and stationery of every description used in the sheriff's offices in the different counties of the state, also to provide all necessary furniture. Hitherto this has not been the case.

—Mr. William Wright, of Figart, who is suffering with a tumor on the left jugular vein, went to the West Penn Hospital, Pittsburg, a few days ago, with a view to having an operation performed, but he was told that he could not survive it, and was advised to return home and take things as easy as possible in order prolong his life.

—Just as we go to press we learn that a 9-year-old daughter of Mr. Oslen, who lives across the river from Barnesboro, was burned to death this afternoon. Her mother was ill and she attempted to start a fire with coal oil. The can exploded and she was enveloped in flames. Death resulted in a couple of hours.—*Spangler Sentinel.*

—During a recent severe storm a sycamore tree was blown down at Sandusky, O., which was noted for the reason the Indians hollowed it out and constructed inside an apartment large enough for two dozen people. In it a small detachment of Colonel Crawford's army encamped the night preceding their disastrous battle with the Indians.

—Whenever you hear a man finding fault with a local paper open it up and ten to one he hasn't an advertisement in it; five to one he never gave it a job of work to do; three to one that he does not take the paper; three to one that if he is a subscriber he is a delinquent; even odds he never does anything in any way that will assist the publisher to run a better paper.

—Mary Taylor, eight years old, granddaughter of General John P. Taylor, was tramped to death a few days ago at Lewistown, Pa., by a savage bull. Her skull was fractured, her jaw, arm, and thigh broken, and her chest crushed. She died in an hour after the accident.

—A bicycle has not the right of pavement, but it has the right of streets and roads, as wagons have, and when run down intentionally or by carelessness on the part of wagoners or others, damage may be obtained by process of law. The cycler should not hesitate to use his bell when about to pass or in meeting vehicles. It gives warning and may avert a runaway.

—Emmet Thornton, a slater employed on the Laughlin Memorial Home, near this place, made a misstep last Friday afternoon and fell from the roof, a distance of forty feet. Strange to say, no bones were broken, and with the exception of being badly bruised and shaken up, he was not seriously hurt, but will be able to be about again in a few days. His home is Clearfield, Pa.

—Perhaps the biggest apple tree in the country grows a few miles from Johnstown on the farm of John Custer. Its circumference is 10 feet, three feet from the ground. The tree is well proportioned, the limbs extending 28 feet from the trunk on all sides. Four years ago there were 4½ barrels of cider made from the apples that grew on it, and from its appearance now there will be several barrels made this year.

—A new trick is being played on the unsuspecting farmer. Two prepossessing men paint a sign on a farmer's fence or barn and give him a few dollars to guarantee them that no one else will be permitted to paint a sign over it. The farmer is asked to sign a receipt, in order that they may return the same to their employers. The receipt that he signs turns out to be a promissory note for $300 or $500. Don't bite.

—During a meeting of the Johnstown board of school controllers on Tuesday night of last week a communication from City Superintendent Johnson was read, in which he openly charged that a number of teachers, and particularly those of the high school, were incompetent to fill the positions and that the standing of the schools is at present lower than at any time for ten years. The communication was tabled and kept from the public.

—This will be a busy week for the farmers of Westmoreland county, and it will finish up the wheat-cutting, and, in the aggregate, will show three-fifths of a crop of a good quality when all is gathered; the oats, that was almost despaired of, will yet yield one-third of a crop, but the hay crop cannot be estimated; the corn and potatoes now give promise for a fair yield, and the pasture fields are showing a green cast once more.—*Greensburg Tribune.*

—The control of the Altoona, Clearfield & Northern Railroad Company, which has been in the hands of Receivers Samuel P. Langdon, of Philadelphia, and Frank G. Patterson, of Altoona, for two years, was on Monday afternoon surrendered to the officers of the corporation by a decree of the Blair county courts. New stock has been subscribed to relieve the company from its indebtedness, and the line will be merged shortly as a feeder to the Pennsylvania system.

—James Grasso, a crippled Italian bootblack of Altoona, on Sunday night attempted to kill David Mumma, an American, at the home of Mrs. Bruner, whose place both frequented. Grasso was drunk, and, becoming jealous of Mumma's attention to a girl in the place, pulled a revolver and shot twice. One bullet went wide of its mark; the second one passed through Mumma's coat and shirt, but, striking the breast bone, turned its course and produced only a flesh wound. Grasso was arrested.

—The engineer on the passenger train was horrified a few evenings ago while taking coal at Fr gality to see the form of a man come through the chute with the coal. After shoveling him out it was discovered to be none other than the night watchman, Mr. George Leaper, who had lost his footing and fell into the chute, just as the fireman opened the gate. Mr. Leaper came out with only a few bruises, but looked as though he had taken a trip through the infernal regions. —*Coalport Standard.*

—On Thursday evening of last week a passenger train on the Cambria & Clearfield railroad ran into an open switch at Hastings and collided with several freight cars standing on a siding. The baggage and express and a smoking car were partially telescoped and the engine badly wrecked. Conductor McDermott was severely cut about the head and the mail clerk and baggage masters were bruised and scratched but not seriously injured. Several of the passengers received scratches and were badly shaken up.

—While a freight train going east was passing through the tunnel on the Pennsylvania railroad near Gallitzin on Wednesday night at 7:30 the coupling of two of the cars near the centre of the train pulled apart. When the two sections of the train crashed together again ten cars were wrecked and about 300 feet of track were torn up. Fortunately none of the trainmen were injured. Philadelphia Express was delayed one hour, having to pass throught the mountain by way of the Old Portage tunnel. After five or six hours of labor by the wrecking crew the track was and cleared repaired.

—At two o'clock on Wednesday afternoon of last week while Mrs. Henry, wife of Dr. T. I. Henry, of Apolio, with her little baby in her arms, was crossing the West Penn railroad brige, which spans Beaver run at Paulton, Westmoreland county, a heavy freight train came dashing along. There not being room for escape at the sides of the bridge, and the distance to either end being too great for the affrighted and almost paralyzed woman to cover, she was forced to stand and await a certain and fearful death. The engine was running at great speed, and could not be checked after the mother and child were seen. Both were killed instantly, and their bodies mangled almost beyond recognition.

—After a long illness from consumption, Mrs. Elizabeth Good, wife of Mr. Levi Good, died at her home in Altoona, on Tuesday, in the thirty-eighth year of her age. Her maiden name was Grimes, and she was born in this county, going to Altoona when about eighteen years of age, where she met and married her husband. Besides her husband, the deceased lady is survived by six children, as follows: Sadie, Frank, Charlie, Bertha, Ellie and Raymond, at home; also by four sisters, namely: Mrs. Susan Morris, Mrs. Lillie Williams, of Altoona; Mrs. Jennie Groom, of Portage, and Mrs. Sallie Rines, of Plymouth, Pa., and by two brothers—August and Michael Grimes—both of this county.

—Our readers may not be aware of the fact that at the last session of the legislature an amendment was passed to the marriage license law, which was signed by the governor on June 18th. The amendment makes a marriage license now good in any county in the state, instead of simply in the county of issue. The party performing the ceremony must make the return to the officer who issued the license. It would be well for clergymen and others authorized by law to perform marriages to make note of the above fact, as there is a heavy fine for a failure to properly report within thirty days all marriages performed. The act went into effect at once. In all other respects the law remains as it was.

—Mrs. Laura, wife of Jonathan Jones, of Cambria township, died at Dixmont insane asylum on Friday last, aged about 45 years. The deceased was born in Ebensburg and was a daughter of John Brookbank, deceased, an old resident of this place. About twenty years ago she was united in marriage to Jonathan Jones, a prosperous farmer, and up until about a year ago was a careful and prudent helpmeet and an estimable lady. About that time her mind became impared and continuing to grow worse it became necessary about a month ago to take her to Dixmont in hope that treatment in that institution would prove beneficial. It was, however, of no avail and on Friday death came to her relief. She is survived by her husband and seven children as also by two brothers and one sister.

—The Berlin *Record* says that Mr. Ira Miller, who lives just east of Roxbury, on the Somerset and Bedford pike, while clearing a piece of ground a few days ago, scratched up a nest of spurious gold coins of the denomination of $5. There were forty coins, all bearing the date 1814. The tarnished appearance of the coins indicated that it was many years since they were buried at the root of the tree which stood where they were found. A little bit of rubbing sufficed to brighten them up and give them the appearance of genuine coin, perfect enough in their imitation to deceive any but an expert. They were taken to the Berlin bank, and after a careful examination, pronounced spurious. The *Record* says that in a confession made by Davy Lewis, Somerset county's notorious robber and counterfeiter of by-gone days, he spoke of having hidden some gold in the neighborhood of Berlin. This may be some of Davy's hidden treasure.

Sheriff's Sales.

Sheriff Coulter has advertised the following properties to be sold at sheriff's sale at the court house in Ebensburg on Monday, August 5th, at one o'clock, P. M.:

The interest of Martha McVicker in a lot of ground in the East ward of Ebensburg.

The interest of Edward Farabaugh in 98 acres and 34 perches of land in Allegheny township, having thereon a dwelling house and barn.

The interest of same in 62 acres of land in Carroll township, having thereon a dwelling house and log barn.

The interest of C. A. Farabaugh in what is known as the Julius Stich brewery property in Carrolltown borough, having thereon brewery, dwelling, ice house, stable and outbuildings.

The interest of Jane Ann Boyles and Benjamin Boyles in 9 acres and 100 perches of land in Dean township, having thereon a two-story plank house stable and outbuildings.

The interest of the same in one and one-half acres of land in Dean township.

The interest of John Edward Westover in 61 acres and 8 perches of land situate in Susquehanna township, Cambria county, and partly in Burnside township, Clearfield county, having thereon a one and a half-story house and a barn. Excepting water right of said premises.

The interest of Henry S. Harker in 96 acres of land in Washington township, having thereon a dwelling house and barn.

The interest of Isaac J. Weakley in 40 acres and 90 perches of land in Carroll township, having thereon a two-story frame house and stable. Excepting the coal rights.

The interest of James P. Kirkpatrick and Jacob G. Kirkpatrick in 132 acres and 76 perches and allowance of land in Carroll township, having thereon a two-story frame house and frame barn.

Marriage Licenses.

The following marriage licenses were issued by the Clerk of the Orphans' Court for the week ending Thursday, July 19, 1895:

Ralph H. Veil and Susanna Weaver, Richland township.

John J. Hughes, Walnut Grove, and Maggie E. Grimbling, New Florence, Westmoreland county, Pa.

Edward Kepple and Carrie Habel, Johnstown.

George O. Hileman, Hastings, and Mary E. Sowers, Barnesboro.

John E. Sellers, Gallitzin, and Teresa L. Leap, Tunnelhill.

Charles Alvar Brown and Carolina Scott, Figart.

John A. Lulay, Susquehanna and Mary E. Miller, Carroll township.

Joseph F. Conrad, Newry, Blair county, Pa., and Rosanna Charles Chest Springs.

A. W. Nicewanger, Cherryhill township, Indiana county, Pa., and Ella Mahan, Cambria township.

William Fearaleyr, Johnstown and Gustie Havner, Tanawando, N. Y.

Patrick Fogarty, Barnesboro and Mary Branon, Patton.

Entombed Thousands of Years.

Joseph Johns, a miner at Wyoming colliery, Wilkesbarre, made a remarkable discovery. He was boring down coal in his chamber when the light of his lamp fell on something in the coal. He stooped down and touched the object and was surprised to find it soft and yielding. With his pick he very carefully chipped off the coal all around it until the cavity or chamber was fully opened, and there in the hard coal he he found a frog imbedded. The frog was at once put in an airtight jar. At first it showed no sign of life, although it was warm, but after being in the jar about six hours it began to move and when it had been exposed to the light ten hours it was quite as lively as any modern specimen which can be found around the ponds in summer. Geologists admit that cases of like nature may and do exist, but they are so very rare that the discovery of a live animal which is thousands and thousands of years old and which has been entombed, with no communication with air, water or food for ages is quite an event.

Many Locomotives

The shops of the Pennsylvania railroad company at Altoona were never more busy than at present. In addition to the large number of cars in course of construction, between seventy-five and one hundred locomotives are to be built as fast as possible to be used in replacing the locomotives worn out in service during the past year.

Among the above order will likely be some two-cylinder compound locomotives. Two of these will be out of the shops before the close of next month, when it is the intention of the company to experiment with them. If they prove satisfactory perhaps a dozen others of the same sort will be turned out before fall. It has already been decided and the order calls for some of the modified class "P" with eighty-inch driving wheels, and some shifters of the class "M" type. The two cylinder compounds will be used for freight service if they prove satisfactory. Should the experiment prove successful all the freight engines built at the Altoona shops this year will be known as the class "R"

Ebensburg Schools.

At a meeting of the Ebensburg school board on Monday evening the following named teachers were selected for the ensuing term: Room 7, principal, Prof. T. L. Gibson, salary, $80; room 6, Miss Annie Jones, $40; room 5, Miss Frances McKenrick, $35; room 4, Miss Maggie Shenkle, $35; room 3, Miss Myra Richardson, $31; room 2, Miss Annie Beynon, $31; room 1, Miss Allie Lloyd, $34.

These are the same efficient teachers who taught last year, with the exception of Miss Frances McKenrick, who has been selected to teach the extra room that the directors have found it necessary to add on account of the crowded condition of the schools. The schools will open on Monday September 2, for a term of seven months. Robert E. Jones has been appointed janitor at a salary of $200 for the term.

Real Estate Transfers.

Elmira Buck et vir. to Frank Dono ghe, Gallitzin; consideration, $350.

George Lentz et ux. to Francis J. Donoghe, Gallitzin, $900.

DENTISTRY.

Do you know we are taking out teeth every day without one particle of pain?

Well, we are doing this very thing with "Odontunder," the only local anaesthetic that has stood the test and to-day it is the only one that is used universally by dentists who are up to date in their calling.

The price for "Odontunder" when painless is 50 cents, but if you experience the least pain, we only charge you the usual price, 25 cents.

How about those teeth that need filling? Well, you say they don't ache. That's just the reason why you should have them filled now. After they have ached once you will probably have to have the nerve killed and the tooth treated if you are desirous of saving it. I only charge 50 cents for amalgum fillings and from $1.00 up for gold fillings. These are hard-time prices but they go just the same. Why procrastinate?—that's a big word but it's a good one right here because procrastination means to the patient loss of sleep, neuralgia, ear-ache, tooth-ache and goodness knows what else. We know of a good many young ladies of our acquaintance who would have been married long ago if it hadn't been for those horrid-looking teeth. Remember, to every patient having teeth filled I give a box of Dr. Richards' tooth powder and full instructions for the care of the teeth. On the 13th of each month I will extract teeth free of charge. You say why on the 13th. Well, now, that's my business. All you have to do is to come. Remember I won't take out your good teeth, because I don't believe in it. Then you say suppose the 13th falls on Sunday. Come right along and we will be only too glad to relieve you of the offending member.

HORR-HARVEY DEBATE

Their Talk About Silver Now On In Chicago.

HARVEY CLAIMS ADVANTAGE.

He Declares He Made His Opponent Acknowlege That Silver Was the Fixed Unit of Value From 1792 to 1873—Horr Denies the Statement.

CHICAGO, July 17.—The debate between Roswell G. Horr and William Hope Harvey on the financial question is on at the Illinois club on Ashland avenue. The judges are Judge W. A. Vincent and Hon. Henry Miller.

After the opening statements the debate proper began by Mr. Horr bringing out the fact that "Coin's Financial School" is an allegory and that the prominent men whose names are given did not actually make the statements attributed to them. At this point the contestants discussed at some length the definition of money. Coming to mones system of the United States, Mr. Horr said:

"The first law that was ever passed in this United States upon the subject of money was on the 6th day of July, 1785; that was two years after the subject had been discussed in every shape and form by the people and press of the United States. Congress then, I will say the exact words: 'And on the question that the money unit of the United States of America be $1, the yeas and nays being required by Mr. Howell, every member answering aye, it was resolved that the money unit of the United States of America be $1. Resolved, that the smallest coin be of copper, of which 200 shall pass for $1. Resolved, that the several pieces shall increase in a decimal ratio.'

"That was the first action taken by the American congress. They first fixed the unit, that is, the name of the thing that should be used as the measure of value, deciding that it should be called $1 and that the smallest division of that should be a half cent piece, that it should be copper, and that it should take 200 of them to make the unit. That was the first effort of the new government to establish a monetary system. Now every one will say they had not yet stated at all what the dollar should consist of except that 200 copper half cents should be one of them, and that was the first unit of measure that congress established. That is all the law there has ever been on the subject and all that has ever been said about it anywhere. [Applause.] So we had first the money of the daddies of copper, no doubt of it.

"Now comes the next important legislation upon this subject: 'Resolved, that the standards of the United States of America for gold and silver shall be eleven parts fine and one part alloy.' Originally that was the weight of alloy in all the coins of the United States. Afterwards we reduced the alloy so that it was one part in ten."

Mr. Harvey said: "As to what Mr. Horr says about copper used as money during the continental days preceding the adoption of the constitution is trivial to be used in this argument. At the time our constitution was framed the details governing the concurrent coinage of the two metals in our financial system was under discussion in committees and between statesmen of that period. So while these details were left to congress, after the adoption of the constitution, a bimetallic system was provided for in that constitution. Article 1, section 8, says: 'Congress shall have power to coin money, regulate the value thereof, and of foreign coins.'

"Section 10 says: 'No state shall coin money or make anything but gold and silver coin a tender in payment of debts.' It says gold and silver, (applause) not gold or silver. [Applause.] This is the constitution. The state surrendered to congress the right to separately coin money, but expressly retained the right to the use of silver and gold as money, neither as token money, one representing the other as silver is now coined representing gold, but both as money in their own right. [Applause.] Congress in good faith with the states has no more right to demonetize one of these metals than it has to demonetize both of them, without the consent of the state. [Applause.]

"The men who framed this constitution then proceeded to give it the construction intended. They gave to both metals equal dignity, equal rights, except to make the dollar of silver and it the unit of value, in which the value of gold would be measured, but with concurrent coinage with silver they gave both metals free and unlimited coinage. Both were given free and unlimited use in the payment of debts. There was no discrimination made in the use of the two metals except that the unit of value was to reside in the silver dollar and that gold coins were to be of the value of so many silver dollars. This is the exact language of the statute, of the men who framed the constitution and knew the construction that it was intended that it should have. Daniel Webster said: (See Congressional Globe appendix, pages 54 to 56, Twenty-fourth congress, second session, Dec. 21, 1836.)

"'Gold and silver is the money of the constitution.' [Applause.] 'The constitutional standard of value is established and cannot be overturned. To overturn it would shake the whole system. Gold and silver at rates fixed by congress constitute the legal standard of value in this country, and neither congress nor any state has authority to establish any other standard or dispose of this.' [Long and continued applause.] I now hand Daniel Webster's speech to Mr. Horr."

Mr. Horr said: "In 1787, congress resolved that the standard of the United States of America for gold and silver, both together, shall be eleven parts fine and one part alloy. That was precisely as they had decided before, that the money of the United States being by the resolve of congress on the 6th of July, 1785, a dollar shall consist of fine silver, 375.64 grains in each silver dollar. That is the first establishment of what the unit should consist. Next that the money of account to correspond with the division of coins agreeable to the above resolve proceed in a decimal ratio agreeable to the forms and manner following."

Mr. Harvey said: "The straits to which the colonies were put between 1776 and 1790, when we as a government known as the United States went into operation, were those of expediency, but no permanent system was adopted, awaiting the constitution of the regular United States congress; and it is to the action of that constitution, and the congress that met in pursuance of it, that we should, as educators upon this question, direct our attention. What Jefferson recommended for the unit was adopted, and the statute so reads, and the gold coins are valued in that silver unit, and Hamilton's suggestion for two units, a gold unit and a silver unit, was not accepted by congress, and only a silver unit was provided for in the act of 1792."

Mr. Horr—"Now, all this talk of Mr. Harvey's is of very little importance so far as I am concerned. What I say is that when they passed that law they intended to establish bimetallism in the United States. They did fix the silver dollar as a unit of value, there is no doubt about it. And they also fixed of what the gold coins consist and there were a number of units and there they defined the ratio between the two metals, consequently when they fixed the ratio 15 silver dollars to 1 of gold there were two standards, a gold standard and a silver standard. We did not use the gold standard at all up to 1834."

Mr. Harvey said: "I want now to call the attention to the fact that for several years our side has claimed that silver was fixed in 1792 as the unit of value continuing to 1873, as strenuously denied by the other side. And, now we come face to face with the other side where they do not dare to mislead; and in the first joint debated question in this controversy they are forced by the truth to admit that 371¼ grains of silver was fixed as the unit of value (loud applause) by the act of 1792 and remained such to 1873."

Mr. Horr said: "Who is admitting that?"

Mr. Harvey said: "The reading of the debate thus far will show that Mr. Horr has admitted it. Now, why was silver made the unit of value by that act? This was to be a government of the people with its organic laws, its financial policy and its statute laws intended to promote the interest of the many, the poorer people. Silver was the money of the plain people. The people's money was to control the rich man's money. This was as it should be. This was intended to be the financial system of our republic, instituted to resist the influence of the monarchies of the old world."

Mr. Horr said: "I want to say here that the question of the unit has not been disposed of today. I am not through with it, and as he has taken so much time, I want to give a word as to why they recoined the gold instead of the silver. The reason was because we were on a silver basis and did not intend to disturb the relation of money to the business of the country. Gold had not been used, and they purposed to put the gold dollar so that it would equal the silver dollar, the one we had been using and the one under which contracts had been made; and so they resolved to cut down the gold dollar to make it even with the one the people had been using. That is the reason and the only reason."

Here ended the first day's debate.

AN ELECTRIC LOCOMOTIVE.

It Pulls a Big Freight Train Through the B. & O. Tunnel at Baltimore.

BALTIMORE, July 17.—All possible question of the ability of electric locomotive No. 1 of the Baltimore and Ohio railroad to pull the heaviest trains through the belt line tunnel has been disposed of. With the tremendous load of 26 freight cars, all laden to their utmost, and two large locomotives, the electric monster pulled through the tunnel with not nearly all power on.

This test of the locomotive was the most important that has yet been made. The load pulled was at least 2,800,000 pounds. The two steam engines, which were attached to the train, joined their forces when the electric locomotive was detached, to take the train on its journey east.

STAMBULOFF VERY LOW.

He Had Forebodings of His Sad Fate Months Ago.

SOFIA, Bulgaria, July 17.—Ex-Premier Stambuloff is very low from the wounds inflicted by his would-be assassin. It is believed here that the attack was the result of a government intrigue.

Stambuloff predicted his fate months ago.

Cleveland Don't Want a Third Term.

PORTLAND, Or., July 17.—Ex-Congressman General T. Cable of Illinois, in an interview speaking about president and a third term, said: "When the proper time comes the president will make himself mighty clear on the subject, if necessary. He will not be before the convention, nor would he run if nominated."

Died For a Dime.

WICHITA, Kan., July 17.—Near Clearwater, Daniel Smith, a 9-year-old boy, was in ill-health and his father got a patent medicine to recuperate him. His father promised to give him a cent for every dose he would take. The boy took ten teaspoonfuls of it in order to get a dime. He died before medical attendance could be secured.

A Philadelphia Failure.

PHILADELPHIA, July 17.—Thomas H Belcher, the owner and proprietor of "Chrystal Palace," the large notion store, 32 North Eighth street, has assigned for the benefit of his creditors The assignment was caused by execution on a note for $82,400, payable to Hood, Foulkrod & Co., for goods purchased, dated July 15, 1895, and made payable on demand.

Tried to Kill Himself and Sweetheart

PHILADELPHIA, July 17.—James Conner, aged 24 years, of 2744 Kensington avenue, shot Kate Conley, aged 19 of 1933 Ann street, and then turned the weapon upon himself, sending a bullet into his right temple. The girl may recover, but Conner cannot. The shooting was the result of a lovers' quarrel.

Hastings Men Elected.

SCRANTON, Pa., July 17.—The Second legislative districts convention was a tame affair. Colonel E. H. Ripple and City Controller Widemayer being elected delegates, by 34 votes out of 50. Both are Hastings men, and are pledged to support Judge Willard for the superior court.

Window Glassworkers Convention.

PITTSBURG, July 17.—The Window Glassworkers convention has adopted a resolution, that the size of rollers after cutting shall not exceed 40x56 inches. President Burns will be allowed to appoint four members of the executive committee in the future.

The Flints' Convention.

TOLEDO, July 17.—The flints' chimney committee has reported in favor of reducing the number of moves on some lines of chimneys, also a 10 per cent advance to gatherers. The prescription committee reported in favor of an advance.

Only a Small Strike.

WHEELING, July 17.—About 20 miners have quit work at the Elm Grove coal works and about a dozen at Glendale. This was the only foundation for exaggerated reports of a miners' strike in this district. All the operators are and have been paying the 60-cent scale.

PITH OF THE NEWS

An attempt to make nickel steel guns at the Watervliet Arsenal, Rutland, Vt., was a failure.

Correspondence from Havana stated that several great battles had been fought in Cuba.

Mint coinage of the past fiscal year amounted to $43,933,475 in gold and $9,063,480 in silver.

Private advices received at Washington indicate that the cruiser Olympia did well on her trial trip.

Cotton screwmen accused of murder in the levee riots were released on bail at New Orleans.

Affidavits are prepared at Chicago to prove wholesale bribery of the Illinois legislature.

Clarence Barr, the Chinatown guide, who was stabbed by C. B. Henderson, a traveling salesman from Rochester, N. Y., during the course of a row over the payment for drinks in the barroom of the Baldwin House, San Francisco, is dead.

A force of 7,000 Japanese troops has left Taututla to attack the Black Flags at Tai Wan Fu, island of Formosa.

The jury in the case of Baxter Shemwell, on trial for the murder of Dr. R. T. Ryan in Lexington, N. C., last February, returned a verdict of not guilty.

In the federal court at Keokuk, Ia., Judge Woolsen sentenced ex-State Senator E. R. Cassett, the Pella bank wrecker, to nine years in the Anamosa penitentiary.

Heavy rains, the first in six weeks, have effectually extinguished all forest fires near Traverse City, Mich.

The Talbot Woolen mills, at North Billerica, Mass., which shut down three weeks ago on account of a strike of its 400 operatives, has resumed operations, with the strikers in their old places.

There has been serious bread rioting in the city of Zamora, Spain.

DENIES THE CRIME.

Holmes Says He Didn't Kill Pietzel's Children.

MUST STAND TRIAL IN CANADA.

Philadelphia Authorities Have Given Up Hope of Convicting Him of the Murder of Pietzel—They Will Allow Him to Be Taken to Toronto.

PHILADELPHIA, July 17. — H. H. Holmes, the insurance swindler, accused of having murdered the Pietzel children, whose bodies were found in Toronto, denies having any knowledge whatever of the crime. It is probable, however, that he will be taken to Canado, there to answer the charge of murder, as the authorities here have about given up the hope of fixing upon him the responsibility for the death of the man found in the Callowhill street house, this city, and who it is supposed was the father of the Pietzel children. Holmes was visited in Moyamensing prison by his counsel, R. O. Hoon, who subsequently made the statement that his client had positively denied all connection with the murder of the children.

Holmes asserts that the last time he saw them was in October of last year, in Toronto, where he had left them in charge of Minnie Williams, the girl, he met in Chicago. He asserts that he knows nothing of what became of them after that time, and that he always believed the Williams girl had taken them to Europe. He also insists that he knows nothing of the boy and that he had nothing to do with the death of Pietzel. He was taken to the station at City hill today and subjected to a rigorous examination by Messrs. Finletter and Barlow, who are associated with the district attorney in the case.

ENDED IN DISORDER.

A Vote Prevented at the Convention at Greensburg.

GREENSBURG, Pa., July 17. — The Westmoreland county Republican convention broke up in the wildest disorder. When the resolution instructing the delegates for Quay was presented, R. A. F. Lyon, chairman of the convention and an anti-Quay man, declared the resolution out of order. He then declared the convention adjourned without taking a vote, slipped out of the hall by the back entrance and hid himself.

Quay's supporters in the convention refused to accept the chairman's declaration that the convention was adjourned and John S. Beacom mounted a table in the middle of the hall, put the question on the resolution and declared it carried. All this took place amid a storm of cries for Quay, yells, hoots, hisses and catcalls.

This scene of disorder continued for over half an hour, when the delegates seeing that nothing more could be accomplished, slowly began to leave the hall.

FEARS HIS OWN COUNTY.

Governor Hastings Goes With Magee to See His Philadelphia Lieutenants.

PHILADELPHIA, July 17.—Governor Hastings, accompanied by C. L. Magee of Pittsburg, came over from Harrisburg to consult his lieutenants in the campaign for control of the Republican state organization. Among his first visitors was David Martin, the local Republican leader, with whom he was closeted for a long time, after which Messrs. Martin and Magee had a talk, and then Mr. Martin saw Mayor Warwick.

The subject of these conferences were not made public, but it is asserted by the Quay people that disaffection has appeared in the governor's own county, (Centre), and that it is possible that Quay delegates may be sent from there. The governor is thought to have come here for the purpose of guarding against such a contingency.

OUR FOREIGN TRADE.

Sales Increasing, Though Exports and Imports Were Reduced Last Year.

WASHINGTON, July 17.—A statement of the imports, exports and immigration of the United States during the fiscal year ended June 30, 1895, shows as follows: Merchandise exported $807,693,261, last year $891,907,709. Merchandise imported $731,960,319, of which amount one-half was free of duty. Merchandise imported in 1894, $847,775,017, of which $372,515,931 was free of duty. The gold coin and bullion exported during the last fiscal year amounted to $68,131,183, and the imports $35,984,449. The exports last year, therefore, was $30,984,449 in excess of the imports.

In the previous year the exports exceeded the imports by $1,528,942. The exports of silver during the last year aggregated $49,226,612, against $9,518,928 in imports. This is a slight falling off from both the exports and imports of the previous year. During the fiscal year 1895 the number of immigrants who arrived in the country was 276,136, against 311,612 during the previous year.

The Olympia a Swift One.

WASHINGTON, July 17. — The substance of the report of the Olyphia inspection board has been made public by Secretary Herbert. It shows for one thing that the Olympia has broken the record of American men-of-war and that no ship in the Atlantic waters can equal her speed under natural draft. The ship underwent a full speed, natural draft, steam trial of four hours duration. She developed 19.6 knots speed, but will go 21 knots under forced draft.

The Seized Brig Pearl.

NEW YORK, July 17.—No examination of the cases of goods seized by the United States marshal on board the brig Pearl, loading at Brooklyn, for a southern port, has yet been made and it cannot be said, therefore, whether the brig's cargo contained arms for Cuban insurgents or not. L. W. and P. Armstrong, who deny that they have any interest in the boat or cargo, having sold the Pearl three years ago to a southern shipping company.

Mrs. Farrall Embraced Her Lawyer.

LA PLATA, Md., July 17.—Mrs. Farrall has been found not guilty of the poisoning of her husband. When the verdict was announced the crowd in the courtroom cheered wildly. Mrs. Farrall broke down and wept for joy. She became hysterical. She sprang to meet Colonel Wilmer, her chief counsel, who was advancing to meet her. She threw both arms around the stalwart colonel's neck and kissed him.

Why White Killed Rothschild.

MEMPHIS, July 17.—Dr. White, who killed Jacob Rothschild, the piano salesman, in an interview with a reporter, said his object in interfering to stop the attentions paid to Miss Carrie Glissoon by Rothschild, was simply to protect the girl, whom he had known from her childhood, from probable harm. Rothschild's body will be shipped to his family at Dallas, Tex. He was married, but the girl didn't know it.

Dynamite Sweepings In the Stove.

LOGANSPORT, Ind., July 17.—Maude Bunnell, daughter of a wealthy farmer near Reynolds, swept together a quantity of dynamite, which had been left where her father was filling shells for blasting purposes, and threw the collection into the stove. In the explosion which followed one hand was torn off and her face badly mangled.

DR. EDDMON CLEARED.

Mrs. Peany's Murder at Tontogany, O., Still a Mystery.

MRS. EDDMON IS DISCHARGED.

After a Failure to Prove the Doctor Guilty the Prosecution Moved For Her Dismissal—The Audience Enthusiastic Over the Verdict.

BOWLING GREEN, O., July 17.—Dr. Eddmon has been cleared of the murder of Mrs. Peany, at Tontogany.

Judge Melhorn's charge to the jury was manifestly in favor of the accused, and when the jury retired, there were few persons who believed that there would be any other verdict than acquittal. When the jury arrived at a verdict, it was fully half an hour before the prisoner, the attorneys and the court officials had all gathered.

Mr. Eddmon entered the courtroom smiling and confident, and sat down with his attorneys. The jurors responded in the usual manner as to finding a verdict, and the same was then opened. It was in the usual form and found the prisoner "not guilty."

The audience showed such enthusiastic satisfaction at the announcement that the bailiffs had considerable difficulty in restoring order.

Attorney Parker renewed his motion that Mrs. Eddmon be admitted to bail, but Prosecutor Murphy moved that she be discharged, the state not possessing sufficient evidence to warrant her detention. Judge Melhorn thereupon ordered her discharged and the case against her stricken from the docket.

Later Dr. and Mrs. Eddmon were driven to their home at Tontogany.

Mrs. Peany was found murdered in the rear of Dr. Eddmon's drugstore. He was accused of being intimate with the woman and having murdered her.

New Civil Service Rule.

WASHINGTON, July 17.—The president has just promulgated a new rule modifying the old customs rule of the civil service, the effect of which is to greatly limit the number of promotions in classified customs districts, except after appropriate examination. Promotions can be made only to a limited extent without examination, and no promotions can be made from one grade to another without an appropriate examination to test fitness for the position to which the promotion is to be made.

Iron Miners Strike More Serious.

ISHPEMING, Mich., July 17.—The situation with reference to the strike in Ishpeming and Negaunee gradually grows more serious. All work at the mines has ceased. About 2,000 men from both cities held a mass meeting and decided to hold out as long as possible and molest all who dare to resume work. Committees were appointed to wait on the officials of the companies, submitting propositions for higher pay.

Against Ex-Romanists Lecturing.

CHICAGO, July 17.—The executive board of the American Protective association, which has been in session for two days, has adjourned. The most important matter before the board was the report of J. H. D. Stevens, appointed at the last meeting of the supreme council to present to this meeting a plan of insurance. A resolution was adopted declaring against any "ex-Romanist" lecturing under the auspices of the order.

Ohl's Murderer on Trial.

TRENTON, July 17.—Senator Daly, conducting the examination of Student Cochran in the trial of the negro Collins for shooting Student Ohl, asked about the details of the first meeting of the students and the negroes. Cochran said that at the time there was some bitter words on both sides, but he could not remember what was said, except that Ohl said, "We don't want to fight with you fellows."

The Flood at El Paso.

EL PASO, Tex., July 17.—Twelve square miles in East El Paso are under water, causing $15,000 damage. Traffic over the Southern Pacific has been entirely blocked for 24 hours. Evergreen cemetery is entirely under the flood, which was the biggest ever known here. The freshet, however, which was caused by heavy rains in New Mexico, is now receding.

The Rev. Arthur Brooks Dead.

NEW YORK, July 17.—The Rev. Arthur Brooks died on board the steamship Fulda, on her passage from Southampton to this city. He was a brother of the late Bishop Phillip S. Brooks, and pastor of the Church of the Incarnation, this city.

Secretary Smith a Sabbath Observer.

WASHINGTON, July 17. — Secretary Hoke Smith has declined to approve a request for pay for work done on Sunday by government employes.

HOGS—Market firm at $5.40@5.70.

BAPTIST YOUNG PEOPLE'S UNION.

Delegations Began to Arrive In Baltimore This Morning—Great Preparations.

BALTIMORE, July 17.—Baltimore is all agog preparing for the international convention of the Baptist Young People's union. Delegations began to arrive this morning.

"Smoking Prohibited," will be a conspicuous placard in the great tent. Every precaution will be taken to minimize the cause of accidents. The medical staff of the convention are completing hospital arrangements so that prompt aid may be afforded and the visitors put to no expense for emergency attendance. Two hospital tents will be provided—one for ladies and one for gentlemen. A 1,500-pound bell is being placed in position at the tent, and will be used to call together the Baptists at service hours.

The entire front of the choir gallery in the tent has been covered, in equal parts, with the four colors of the Baptist union, viz: Green, for the southern section; blue, for the west of the Mississippi river; gold, east of the Mississippi, and red for Canada. The city railway companies will give a great trolley party to the delegates on Friday evening, and on Saturday afternoon there will be a grand parade of resident and visiting wheelmen.

Poisoned Her Adopted Parents.

SEYMOUR, Ind., July 17.—Fleming Sarver and wife, of Uniontown, have been poisoned by their coffee and Sarver has died. An adopted daughter, Dollie Belknap, has confessed that she, upon the advice of her lover, Hays Robinson, had poisoned the old folks so that she could inherit their property. When Mrs. Sarver heard of her husband's death she took a relapse, and is not expected to live. Warrants have been issued for the arrest of Hays Robinson and two Derringer girls who are also supposed to be concerned in the case.

Missionaries Abused In Ecuador.

WASHINGTON, July 17.—Ex-Representative Timothy Campbell of New York has called at the state department and had a conference with Acting Secretary McAdoo, respecting the ill-treatment of a number of sisters of the Benedictine order from New York, who had established missions in Ecuador. Some have arrived in New York, having escaped in a small boat. The United States has demanded protection for those who remain, and will likely demand reparation for the outrage.

Important Pension Decision.

WASHINGTON, July 17. — Assistant Secretary Reynolds has decided that while the commissioner of pensions is forbidden by law to suspend payment of a pension pending proceedings to annul or reduce it, nevertheless, in case such pension is annulled, all unpaid pension apparently accrued at the date of annulment becomes illegal and must not be paid.

American Shot by Mexican Troops.

WASHINGTON, July 17.—Frank Roberts, United States consul at Nogales, Mexico, has reported to the state department, under date of July 5, on the execution by Mexican troops of Robert Tribolete, an American citizen from Bisbee, A. T., who settled in Frontevas, Mexico, about two years ago. He was suspected of robbery.

Stage Robbery In Oregon.

OREGON CITY, Or., July 17.—Word has been brought to the city that the Wilhoit Springs stage has been held up by highwaymen at Howard hill, a few miles from this city. Henry Mattoon, the driver, and one passenger, a Portland man, were robbed of their money, about $60.

A Riot In Mississippi.

JACKSON, Miss., July 17.—It is learned here that a riot has occurred at Learned, Miss., between the McRea and and Terrill factions, who were engaged in a law suit. Fifty-two shots were fired. Two men were killed, another mortally wounded and several injured.

Big Advance In Nail Prices.

NEW YORK, July 17.—Inquiry in the nail trade in this city shows that there has been an advance in the price of nails in the last sixty days of nearly 100 per cent. This is said to be due to a strong agreement, which includes all the manufacturers in the country.

Yellow Fever Increases In Havana.

WASHINGTON, July 17.—Advices to the surgeon general of the marine hospital service are to the effect that there were 20 new cases of yellow fever in Havana, during the week ending July 11, and 8 deaths, a slight increase.

Of Course He Is an American.

BERNE, Switzerland, July 17.—An American named Zermatt Parkett has accomplished the ascent of the Matterhorn over 14,700 feet above the level of the sea.

The Steamer Not Sunk.

RICHMOND, Va., July 17.—The steamer Ariel reported sunk in the James river, with a crowd of colored excursionists, has arrived safely at Petersburg. It was delayed by the storm.

A Prominent Railroader Dead.

SAN FRANCISCO, July 17.—A. N. Towne, second vice president and general manager of the Southern Pacific company, has died at his residence in this city.

Assignee's Sale.

The undersigned will offer at public sale in front of the Court House, Ebensburg, Pa.,

THURSDAY, AUGUST 1, 1895,

AT TWO O'CLOCK, P. M.,

all the right, title and interest of J. Schall Wilhelm in and to the following real estate:

No. 1.—All the undivided one fourth part of that certain piece or parcel of land situate in Adams township, Cambria county, and State of Pennsylvania, adjoining lands now or formerly of Jacob Wendle, Sidman's heirs and Richard Rhodes, excepting and reserving, however, the right of way previously granted and conveyed to the Pennsylvania Railroad Company, containing

48 ACRES AND 63 PERCHES.

No. 2.—All the one undivided fourth part of that certain piece or parcel of land situate in Adams township, Cambria county, and State of Pennsylvania, adjoining lands now or formerly of Adam J. Fulmer, Isaac Smay, J. K. Sitman, John Madison and Andrew Munsaw, and the township road, excepting and reserving, however, the right of way previously granted and conveyed to the Pennsylvania Railroad Company, containing

90 ACRES AND 140 PERCHES.

No. 3.—Also, all the right, title and interest of the said J. Schall Wilhelm (being the one undivided fourth part) in and to all the coal and other minerals, with all the rights and privileges necessary for the mining and removal of the same provided for in the several deeds of conveyance vesting the same in the said J. Schall Wilhelm and J. F. Wilson, J. C. Luke and D. W. Luke, and mentioned in the recitals to each description given below, in, upon and under the following described tracts or pieces of land situate in Adams township, Cambria county, Pennsylvania, to wit:

A. Adjoining lands now or formerly of Jacob Wendell, Rye and Horner, Isaac Smay, and public road, containing

62 ACRES AND 39 PERCHES.

B. Adjoining lands now or formerly of J. R and J. E. Stull, Samuel Shank and Tobias Miller, Isaac Smay and J. S. Wissinger, containing
